

Dear Alumni,

Greetings!

**Many among you have very fond memories of the time you had spent in our school.**

Our beloved school is in need. The school building that houses many of our childhood memories is now needing repair and strengthening. What started as an assessment for a solar project to help our school reduce operating costs led to the discovery of issues with the terrace and the supporting structure. These repairs are a critical prerequisite for the solar project and together form the basis for this request for funding support.

The budget for this initiative is expected to be between Rs 50-60 lakhs and we need all your support. The funding will be routed through the DTEA Alumni trust and more details on how and where to send your contribution will soon be published and shared. The project will be executed under the overall supervision and guidance of the DTEA Alumni trust.

**At this point in time we are only asking for your pledge. Please confirm your pledge by mentioning your Name, Branch, Year, Contribution Amount (Rs), email ID and Mobile number by sending an email to [dtea.pusa@gmail.com](mailto:dtea.pusa@gmail.com). You can also visit our website [www.goSolarDTEAPUSA.com](http://www.goSolarDTEAPUSA.com) and confirm your pledge.**

No amount is small in a project of this size and all pledges are kept confidential.

**A total of nearly Rs 18 lakhs have been pledged so far. So, come forward and make your pledge today and help us reach our budget of Rs 60 lakhs.**

This initiative would immensely help the school, its image and in its ability to compete with the best schools in Delhi. The school has been doing its best, improving and is getting recognized for its efforts. Our school recently has been awarded the prestigious grant- "Atal Tinkering Lab", to set up a state-of-the-art lab in a discipline of its choice.

Please do spread the word around and help us reach out to our alumni across the years. **Also, if you can volunteer to help reach out to your batch mates and your other alumni contacts and ensure their participation in this noble cause, it would be of great help. Let us know if you would like to volunteer.**

Please remember that by strengthening our school building we will leave a lasting impression of our love and devotion to our Alma Mater!

Thank you,

Fundraising sub-group
